Independent Auditors' Report

The Board of Directors UNIBANK S.A.:

Opinion

We have audited the consolidated financial statements of UNIBANK S.A. and its subsidiaries ("The Group"), which comprise the consolidated balance sheet as of September 30, 2024, and the consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated balance sheets of the Group as of September 30, 2024, as well as its consolidated financial performance and its consolidated cash flows for the year then ended, in accordance with International Financial Reporting Standards (IFRS).

Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The supplementary consolidated information included **in schedules I to V** is presented for purposes of additional analysis and is not a required part of the basic consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and is fairly stated, in all material respects, in relation to the basic consolidated financial statements taken as a whole.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code), as well as ethical standards applicable to the audit of financial statements in Haiti, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The Board of Directors UNIBANK S.A. Page 2

Responsibilities of Management and those charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards (IFRS) and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements taken as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

The Board of Directors UNIBANK S.A. Page 3

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of the accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
 entities or business activities within the Group to express an opinion on the
 consolidated financial statements. We are responsible for the direction, supervision
 and performance of the Group audit. We remain solely responsible for our audit
 opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1) ORGANIZATION

(a) General information

UNIBANK S.A. (www.unibankhaiti.com) is a commercial bank corporation, owned by 410 investors from the Haitian private sector. Its core activities include banking, financing, credit, brokerage and foreign exchange operations, in Haiti and abroad, in compliance with the laws on banking. It was founded on November 20, 1992, received its official Bank License on January 18, 1993, and launched its public operations on July 19, 1993.

In Haiti and abroad, UNIBANK S.A., directly or through its subsidiaries (note 21), offers banking and financial services to its individual, commercial and institutional clients, using its national and international networks of:

- · branches, agencies, service kiosks, offices and authorized paying agents;
- automatic teller machines (ATM);
- electronic point-of-sale terminals (POS);
- correspondent banks and international money transfer companies operating globally.

UNIBANK S.A. is present across the Haitian territory and also offers online (UNIBANK Online) and mobile banking services (UniMobile). The most important lines of business UNIBANK S.A. and its subsidiaries are involved in are the following:

- Commercial and investment bank services to all segments of the Haitian population, urban or rural, as well as of the Haitian Diaspora:
 - commercial (micro-businesses; small to middle businesses (SMEs); middlemarket commercial and industrial firms; big corporations);
 - institutions (Non-Government Organizations [NGOs]; churches; credit unions; embassies; pension funds; etc);
 - retail (individuals and families).
- Insurance (property-casualty insurance; life-insurance; micro-insurance).

1) ORGANIZATION (CONTINUED)

(a) General information (continued)

FONDATION UNIBANK, a non-profit philanthropic organization created on April 6, 2006 by the shareholders of UNIBANK S.A., is not consolidated in these financial statements. Upon its creation, it received, as a donation, a permanent and unrecoverable endowment of 100 million gourdes (\$US 2.5 million) from UNIBANK S.A. It is financed by the investment earnings from its endowment, and by the annual contributions received from UNIBANK S.A.

The main goal of FONDATION UNIBANK is to implement the corporate social responsibility policy of UNIBANK S.A., by participating in the promotion of Education; Research; Arts and Culture; Health; Sports; the Protection of the Environment; the Preservation of National Heritage; Entrepreneurship; and the Rule of Law and Civics in Haiti. The by-laws of the Foundation were published in the Official Journal of Haiti, *Le Moniteur*, number 36 of April 17, 2008.

(b) Legal information

The act of incorporation, the Bank License and the original by-laws of UNIBANK S.A. (The Bank) were published in the Official Journal of Haiti, *Le Moniteur*, number 19 of March 8, 1993. Thereafter, the authorized capital and the by-laws were modified several times by the shareholders (*Le Moniteur*, number 103 of December 28, 1994; number 74 of September 18, 1995; number 13 of February 17, 1997; number 43 of June 3, 2002; number 6 of January 24, 2005; number 63 of June 18, 2009; number 137 of October 4, 2011; number 62 of April 1, 2016; and number 183 of November 23, 2017).

The Head Office and legal domicile of the Bank is at 157, Faubert street, Petion-Ville, Haiti. The fiscal identification number of UNIBANK is 000-014-095-8.

(c) Supervision and Regulation

Pursuant to laws dated August 17, 1979 creating Banque de la République d'Haïti (The Bank of the Republic of Haiti - BRH) (Le Moniteur, number 72 of September 11, 1979), and May 14, 2012 bearing on banks and other financial organizations (Le Moniteur, number 4 - Special Edition of July 20, 2012), UNIBANK S.A. is regulated and supervised by the Central Bank (www.brh.net).

1) ORGANIZATION (CONTINUED)

(c) Supervision and Regulation (continued)

Regarding the fight against money laundering and the financing of terrorism (AML/CFT), UNIBANK S.A. reports to the Bank of the Republic of Haiti (BRH) and Unité Centrale de Renseignements Financiers (Central Unit for Financial Intelligence - UCREF), pursuant to the laws of November 11, 2013 sanctioning money laundering and the financing of terrorism (*Le Moniteur*, number 212 of November 14, 2013), of September 28, 2016 amending the law of November 11, 2013 (Le *Moniteur* no. 15 - Special issue of October 13, 2016), and of February 21, 2001 bearing on the laundering of money from illegal drug trafficking and other serious violations (*Le Moniteur*, number 97 of December 3, 2001). UNIBANK S.A. is registered in the United States of America in compliance with the requirements of the "USA Patriot Act" and the "Foreign Account Tax Compliance Act (FATCA)".

In reference to the fight against corruption, UNIBANK S.A., in addition to adhering to its principles of corporate governance and its Code of Ethics, complies with the information requests of the Unité de Lutte Contre la Corruption (Anti-Corruption Unit – ULCC) created by the decree of September 8, 2004 (*Le Moniteur*, number 61-Supplement of September 13, 2004). UNIBANK S.A. is governed by the law of March 12, 2014 on the prevention and punishment of corruption (*Le Moniteur*, number 87 of June 9, 2014); as well as by certain international conventions ratified by Haiti.

Unitransfer S.A (Haiti) is regulated and supervised by BRH in Haiti.

In addition to regular inspections by the aforementioned regulatory bodies, UNIBANK S.A. and UniTransfer S.A., retain the services of qualified international auditors to conduct independent audits of its compliance programs against money laundering and the financing of terrorism.

(d) Scope of Consolidation

Subsidiaries of UNIBANK S.A. consolidated in these financial statements are presented in **note 21**. The principles of consolidation are presented in **note 2b**.

2) BASIS FOR FINANCIAL STATEMENTS PREPARATION

(a) Accounting framework

The consolidated financial statements of UNIBANK S.A. and subsidiaries (the Group) were prepared in conformity with International Financial Reporting Standards (IFRS) published by the International Accounting Standards Board (IASB).

The consolidated financial statements were approved by the Board of Directors on January 30, 2025.

Comparative figures

The main accounting policies described below have been applied consistently to all periods presented in the accompanying consolidated financial statements.

(b) Basis of consolidation

The consolidated financial statements include the assets and liabilities as well as the results of the operations and the cash flows of UNIBANK S.A. and its subsidiaries.

Subsidiaries are entities controlled by the Group. An entity is controlled by the Group when it has the power to govern the financial and operating policies of the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control has been effectively transferred to the Group. All intercompany balances and transactions are eliminated.

(c) Basis of measurement

The consolidated financial statements are presented on a historical cost basis, with the exception of the portfolio of securities measured at amortized cost (note 7).

(d) Functional and presentation currency

The consolidated financial statements are presented in Haitian Gourdes which is the Group's functional currency. The financial information reported has been rounded to the nearest thousand.

2) BASIS FOR FINANCIAL STATEMENTS PREPARATION (CONTINUED)

(e) Use of estimates and judgment

In preparing these consolidated financial statements in conformity with International Financial Reporting Standards, Management must make estimates and assumptions that affect the application of accounting policies and the reported amounts of recorded and contingent assets and liabilities, and also of income and expenses of the year. Actual results may differ from these estimates.

The estimates made by Management are based on historical data and other assumptions deemed reasonable. The main uncertainties affecting the estimates include: the determination of fair value of financial instruments, cumulative expected credit loss provisions; income taxes; the recoverable value and the book value of cash generating units in connection to the depreciation test of goodwill and other intangible assets; provisions and contingent liabilities for instance in the case of a lawsuit or restructuration plans.

Estimates and underlying assumptions are reviewed periodically. Revisions to accounting estimates are recognized in the period in which estimates are revised and in any future period affected.

Consequently, actual results could be different from those estimates, which could have an impact on future consolidated financial statements of the Group. See relevant accounting principles in **note 3** for further information on the use of estimates and assumptions.

(f) Critical judgment

In preparing these consolidated financial statements in agreement with International Financial Reporting Standards, Management must exercise significant judgement with an impact on the valuation of amounts recognized in the consolidated financial statements included in the following notes:

Notes 3 (a) and 8 Loans – provision for expected credit losses

Note 3 (n) General reserve – valuation

Note 7 Securities – fair value

Note 9 Fixed assets – depreciation and valuation

Note 10 Right-of-use assets – lease obligations – amortization

and valuation

2) BASIS FOR FINANCIAL STATEMENTS PREPARATION (CONTINUED)

(f) Critical judgment (continued)

| Note 12 | investment properties – depreciation and valuation |
|---------|--|
| Note 13 | Properties held for sale - valuation |
| Note 14 | Financial assets – provisions for expected credit losses |
| Note 17 | Other liabilities – accrued expenses and provisions. |

Since 2023, the Haitian economy is subject to the shocks of a hostile external environment impeding the free movement of goods and services, thus affecting the normal functioning of private enterprises and services provided by the State, and causing an undue increase of prices of goods and services.

Since 2023, according to norm IAS 29 "Financial Reporting in Hyperinflationary Economies", this situation resulted in Haiti being classified as a hyperinflationary economy, by major international audit firms, since, as a trigger, the cumulative inflation rate over three years exceeded the 100% mark for the first time, being 105% at September 30, 2023. Annual inflation rate was 29.3% and 31.8% in 2024 and 2023 respectively.

This IAS 29 classification by the major international audit firms still applies as of September 30, 2024 but it has not yet been adopted by the monetary authorities in Haiti or by most of the local entities since the increase in the inflation index, that triggered this classification, is deemed to be a consequence of a temporary situation. Indeed, the following factors could be indicative of future improvements:

- A transitional government has been installed, supported by a multinational force, to improve the overall security in the country and to lead to democratic elections;
- A decrease in the inflation yearly rate;
- A reduction in the exchange rate of the local currency, the Gourde, versus the US Dollar with an average rate of 141 gourdes for one dollar US during 2023 compared to 132 gourdes for one dollar US during 2024;
- · Reduction of the budget deficit;
- An increase in foreign exchange reserves.

In the event of further deterioration in the economic environment, the Company will review its consolidated financial statements in light of the requirements of IAS 29 that also advocates concurrent application by all entities operating in an economy where this standard applies.

According to Management, the consolidated financial statements were prepared on an adequate basis using fair judgment in all material respects and in accordance with the accounting policies summarized below.

3) SIGNIFICANT ACCOUNTING POLICIES

The following accounting principles were applied consistently by the Group unless there is an indication to the contrary.

(a) Financial instruments

Classification and valuation of assets (IFRS 9)

On initial recognition, all financial assets are measured at fair value in the consolidated balance sheet. Subsequent to initial recognition, in accordance with IFRS 9, financial assets of the Group can be measured: at amortized cost at fair value through profit and loss, or fair value through other comprehensive income. As of September 30, financial assets held by the Bank are measured at amortized cost with the exception of equity instruments of a local company measured at fair value covered by a reserve in retained earnings (note 7 d).

The Group determines the classification of debt instruments based on the characteristics of the contractual cash flows of financial assets as well as the economic model under which these assets are managed, as described below:

Characteristics of contractual cash flows

To classify a debt instrument, the Group must determine if the contractual cash flows associated with the instrument represent solely the payment of principal and interest on the outstanding principal. The principal generally represents the fair value of the financial instrument at initial recognition. Interest is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs as well as profit margin. If the Group determines that the contractual cash flows associated with a debt instrument do not represent solely the payment of principal and interest, the financial instrument is classified as measured at fair value through consolidated profit and loss.

Equity instruments are measured at fair value through profit or loss, unless, at the time of initial recognition, the Group chooses to irrevocably designate an equity instrument, held for purposes other than trading, as measured at fair value through comprehensive income. As of September 30, the Group did not designate any financial instruments as at fair value through comprehensive income.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial instruments (continued)

Business Model Assessment

The Group assesses the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to Management. The information considered includes:

- Management's stated policies and objectives for the portfolio and the application of those policies in practice;
- The main risks which affect the performance of the business model and the strategy for managing those risks;
- How the performance of the portfolio is evaluated and reported to the Group's Management;
- The frequency, volume and timing of sales in prior periods, the reasons for such sales and expectations about future sales activities.

A portfolio of financial assets is held within a "Hold-to-collect" model when Management's main objective is to hold the financial assets in order to collect contractual cash flows and not to sell them. A portfolio of financial instruments may be held within a model whose objective is both to collect contractual cash flows and to sell the financial assets; such a model is a "Hold-to-collect and sell". The perception and sale of instruments are both essential components of Management's objectives in holding this portfolio.

Financial instruments at amortized cost

Financial instruments at amortized cost include debt securities, the contractual terms of which give rise to cash flows which correspond only to principal repayments and interest payments on the principal remaining due, and which are included in an economic model of the "Hold-to-collect and sell" type. Financial instruments at amortized cost are initially recognized at fair value on the consolidated balance sheet on the settlement date, including direct marginal transaction costs. Thereafter, they are valued at amortized cost using the effective interest rate method, after deduction of value adjustments for expected credit losses. Interest income is recognized in the consolidated statement of income using the effective interest method, including the amortization of transaction costs and premiums or discounts over the expected life of the financial instrument.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial instruments (continued)

Financial instruments at amortized cost (continued)

Loans, Treasury bonds, obligations of US Federal Agencies, term deposits and other assets are financial instruments at amortized cost held by the Group.

The Group's investment securities mainly comprise debt securities at amortized cost (note 6) and an equity security held for trading purposes valued at zero (note 7c).

Classification and measurement of financial liabilities (IFRS 9)

At the time of initial recognition, financial liabilities are measured at fair value including applicable transaction costs. Subsequently, financial liabilities are measured at amortized costs or at fair value through profit and loss. The Group's financial liabilities are measured at amortized cost.

Amortized cost financial liabilities include: deposits, borrowed funds, acceptances, subordinated debts and other liabilities.

Interest expenses on financial liabilities at amortized cost are recorded in the consolidated statement of income using the effective interest method.

Reclassifications of financial assets and liabilities (IFRS 9)

Financial assets and liabilities are not reclassified subsequent to their initial recognition, unless the Group changes its business model for managing the financial instruments. The reclassification is accounted for prospectively from the reclassification date which is the first day of the first reporting period following a change in business model. Such changes in the business model and reclassifications should be rare.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial instruments (continued)

Impairment of financial assets (IFRS 9)

At the end of each reporting period, the Group applies a three-stage impairment model to assess the expected credit losses on all financial assets measured at amortized cost: loans, credit commitments, treasury bonds, term deposits and financial guarantees which are not carried at fair value. The expected credit losses model incorporates forward-looking information. The assessment of expected credit losses at each reporting period takes into consideration information which is reasonable and objective based on past events, actual circumstances, future forecasts and the future economic outlook. The estimates and use of prospective information require the exercise of significant judgment.

With respect to receivables reflected in other assets which are generally short-term, the Group applies a simplified method which does not follow the evolution of credit risk but records a cumulative specific provision on the basis of expected credit losses on the life of the financial instruments at each reporting date from their origination dates. The expected credit loss provision determined using the three-phase approach for the loan portfolio is not reassessed based on subsequent events which occur during the period of assessment ending at the date of approval of the consolidated financial statements as reflected in **note 2** (a).

Specific provisions applicable to financial instruments other than loans and financial instruments at fair value are reassessed on the basis of subsequent events which occur during the period of assessment.

Assessment of phases

The method of depreciation in **three phases** used to assess expected credit loss is based on the deterioration of the credit quality of a financial instrument since initial recognition.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial instruments (continued)

Assessment of phases (continued)

Phase 1. If at the reporting date, the credit risk associated with financial instruments which is not credit impaired has not increased significantly from the date of initial recording, these instruments are classified at Phase 1 and an expected credit loss provision is measured and recorded at each reporting date at an amount equal to expected credit loss over the next 12 months.

Phase 2. If the credit risk associated with a financial instrument has increased significantly from the date of initial recording, the financial instruments will be classified at phase 2 and will be considered impaired. In this case, a provision for the expected credit loss is assessed and recorded at each reporting date at an amount equal to the expected credit loss over the life of the financial instrument.

In subsequent periods, if the credit risk associated with the financial instrument decreases such that there is no longer a significant increase in credit risk in comparison to the credit risk at initial recording, the expected credit loss model requires that the cumulative expected credit loss provision be decreased to phase 1, equivalent to a 12-month expected credit loss.

Phase 3. When one or more events with a negative impact on the future are estimated cashflow from the financial instrument occur after initial recognition, the impaired financial asset is classified at phase 3 and will be considered as an asset in default. A provision equal to the expected credit loss over the life of the asset continues to be recorded or, the asset is written-off.

Interest income is calculated on the gross book value of financial assets classified in phases and on the net book value of financial assets in phases 2 and 3.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial instruments (continued)

Assessment of significant increase in credit risk

In order to determine whether there has been a significant increase in credit risk, the Bank uses an internal credit notation system and a notation of credit risks recommended by the Central Bank. To measure a significant increase in credit risk of a financial instrument, the Probability of Default (PD) for the next 12 months from the reporting date is compared to the Probability of Default over 12 months from the date of initial recognition. The Group includes absolute and relative values in the definition of a significant increase in credit risk and a security margin when contractual payments are in arrears for more than 30 days. All financial instruments for which payments are in arrears for more than 30 days are classified at **phase 2** even if other indicators do not warrant a significant increase in credit risk. The assessment of an important increase in credit risk requires the exercise of significant judgment.

Assessment of expected credit loss

Expected Credit Loss (ECL) corresponds to a weighted average probability of the present value of cash shortfalls expected over the remaining life of a financial instrument. A cash shortfall is the difference between the expected contractual cash flow at origination and the cash flow the Group expects to collect.

The key inputs into the measurement of ECL are the term structure of the following variables:

- Probability of Default (PD)
- Loss Given Default (LGD); and
- Exposure at Default (EAD).

The measurement of ECL per IFRS 9 is based, as applicable, on the parameters of the risk model used by the Bank for the measurement of cumulative provisions based on IAS 39, namely the PD, LGD and EAD.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial instruments (continued)

Assessment of expected credit loss (continued)

For loans to micro-enterprises, the loss of value based on a scale established according to the number of days in arrears as follows:

| Days in arrears | Overdue loans | Restructured loans |
|------------------|---------------|--------------------|
| 0-6 days | 1.25% | 50% |
| 7-29 days | 1.50% | 50% |
| 30-60 days | 20% | 50% |
| 61-90 days | 50% | 50% |
| 91 days and more | 100% | 100% |

These risk parameters are adjusted based on prospective macroeconomic factors, such as interest rates, expected unemployment rates, and projections of Gross Domestic Product and inflation index. In particular, in 2024 and 2023, these forward-looking data on which the assumptions are based include: the political unrest which has hindered free movement in certain areas of the country, affected the purchasing power of consumers and decapitalized several companies, as well as the sanctions taken by some countries against political and economic agents in Haiti, accentuating the climate of uncertainty and crisis.

The Group has the necessary credit expertise and adjusts the results from the model of expected credit loss when it becomes evident that the notation and model of credit risk do not appropriately represent the risk and other information known or forecasted.

Expected credit losses for all financial instruments are taken into account to establish the "Provision for credit losses" in the consolidated statement of income and the cumulative provision is presented in "Provision for expected credit losses", a contra account of the financial instruments at amortized cost. The cumulative allowance for ECL related to the credit risk on off-balance sheet instruments is included in other liabilities on the consolidated balance sheet.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) <u>Financial instruments (continued)</u>

Credit-impaired financial assets on initial recognition

Upon initial recognition, the Group determines if a financial asset is credit-impaired. For financial assets which are credit impaired on initial recognition, the Group records in cumulative "provision for expected credit losses" the changes in the expected credit loss over the life of the asset. The Group records the changes in expected credit loss over the life of the asset in "Provision for credit losses" in the consolidated statement of income, even if the expected credit loss over the life of the asset is less than the expected cash flow estimated at initial recognition. As of September 30, the Group did not hold any credit-impaired financial asset on initial recognition.

Default

The definition of default used by the Group to assess expected credit losses and to transfer financial instruments from one phase to another is consistent with the definition used for internal credit risk management purposes. The Group considers that a financial instrument is in default when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred or that contractual payments are past-due for more than 90 days.

Write-offs

Loans and debt securities are written off either partially or in full when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. The financial asset in default is written off against the cumulative "Provision for Expected Credit Losses" related thereto when attempts to realize guarantees and other recourse have not been conclusive, or the borrower is involved in bankruptcy or liquidation procedures, and it is improbable that the balances due to the Group will be collected. Credit card and microfinance loans, are written-off when they are respectively over 270 and 180 days in arrears. The Bank writes off loans when they are in arrears for more than 360 days.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial instruments (continued)

Restructured financial assets

The terms of a financial asset may be renegotiated or modified, resulting in contractual terms which have an impact on the expected cash flow from the financial asset. The accounting treatment of such modifications depends on the nature and extent of those modifications. A modification resulting from the credit risk of the borrower, such as in the case of restructuration of the debt of a financially stressed borrower, is generally treated as a modification of the original financial asset and does not result in derecognition. Advantageous conditions may include a deferral of payment, an extension of the amortization period, a reduction in interest rate, forgiveness of part of principal, debt consolidation, relief and other measures, and are intended to avoid repossession of the guarantee.

A modification for reasons other than the credit risk associated with the borrower is considered an extinction of the right to initial cash flows; consequently, the modification results in derecognition of the original financial asset and recognition of a new financial asset based on new contractual terms.

If the Bank determines that a modification does not result in derecognition, the financial asset continues to be subject to the same evaluation of a significant increase in credit risk since initial recognition, as previously described. The expected cash flows arising from the modified financial asset are included in calculating the cash shortfall from the existing asset. For financial assets modified while being measured on the basis of expected credit losses over their lives, they may revert to 12-month expected credit losses if the financial situation of the borrower is improved, and the improvement can objectively be attributed to an event which occurred after the recognition of the initial impairment.

If the modification results in derecognition of the initial financial asset and recognition of a new financial asset, the new financial asset is classified at **phase 1** unless it is determined that the new financial asset is impaired at the time of renegotiation. For purpose of assessing a significant increase in credit risk, the date of initial recognition of the new financial asset is the date of modification.

Loans on moratorium are those with an approved extension on the reimbursement of principal for a period of 6 months in the context of policy measures undertaken by the Central Bank in response to the politico-economic crisis affecting the country (Circular 115-4 of October 25th, 2023 and 115-5 of March 28th, 2024). As per these circulars, loans which require more significant modifications, due to a deterioration of the situation of the borrowers, are classified as restructured loans, with a moratorium of a year for term loans and 6 months for microcredit loans. Those loans are disclosed in **note 8**. However, their values are included in their respective loan categories.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Financial instruments (continued)

Derecognition of financial assets

A financial asset is derecognized when rights to the contractual cash flows from the financial instrument expire or the rights to receive contractual cash flows are transferred in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred to a third party. On derecognition of a financial asset, a gain or loss is recognized in the consolidated statement of income for the difference between the carrying amount of the asset and the consideration received.

(b) Conversion of foreign currencies

Monetary assets and liabilities stated in foreign currencies are translated in Haitian Gourdes at exchange rates prevailing at year-end. Gains and losses resulting from this translation are included in the consolidated statement of income.

Transactions in foreign currencies are translated at the exchange rate in effect at the transaction date. Gains and losses related to foreign exchange operations are recorded in the consolidated statement of income.

The financial statements of foreign subsidiaries, Unitransfer International Ltd., GFN Assets International Ltd. and GFN American Holdings LLC. expressed in US dollars, are presented in the presentation currency of the consolidated financial statements. All assets and liabilities are translated into local currency at the closing rate, and income and expenses are translated at the average rate for the year approximating the effective rates at the dates of the transactions. Exchange differences resulting from the conversion of these consolidated financial statements are recorded in the "Translation adjustment" account in shareholders' equity and in the consolidated statement of comprehensive income. Upon derecognition of these subsidiaries through sale or dissolution, the translation effects will be transferred to the consolidated retained earnings.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Conversion of foreign currencies (continued)

The consolidated financial statements presented in **schedules I to V** are translated in US dollars in accordance with IAS 21. Thus, assets and liabilities are translated at the official year-end exchange rate. Shareholders' equity is translated at the exchange rates prevailing at the balance sheet date, and the income and expenses are converted at the average rate for the year. The resulting translation adjustments are separately reflected in the consolidated statement of changes in shareholders' equity.

(c) Cash and due from banks

Cash and term deposits with banks are short-term highly liquid investments which are readily convertible into known amounts of cash without notice and which are within three months of maturity when acquired. These are reflected at cost.

(d) Securities

Securities are composed of foreign and local securities, which are authorized by the Investment Policy, approved by the Board of Directors.

Foreign securities may include US Treasury Bills, US Federal Agency Bonds, bonds of emerging countries and OECD countries and from Supra National Institutions (SNAT). As of September 30, 2024 and 2023, foreign securities include US Treasury Bills and US Federal Agency Bonds.

Local securities may comprise equity investments and corporate bonds from local private companies, Treasury, and Banque de la République d'Haiti (BRH) bonds.

Securities, are classified as follows:

Amortized cost instruments

Amortized cost investments are non-derivative instruments with fixed and determined payments, with fixed maturity that the Bank holds for the purpose of collecting contractual cash flows. The portfolio is composed of securities authorized by the investment policy approved by the Board of Directors. They are recorded at amortized cost, based on the effective net interest rate method and net of a provision for expected credit losses, if required. Amortized cost investments consist of term deposits, presented in "Terms deposits with Banks, net", as well as Haitian Treasury bonds and US Federal Agencies Bonds presented in "Securities, net" in the consolidated balance sheet.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Fixed assets

Fixed assets are recorded at cost, except for land, which has been revalued and stated at fair value in accordance with International Financial Reporting Standard No. 16. Except for land, leasehold improvements, and investments in progress, depreciation is calculated based on the estimated useful life using the straight-line method. Leasehold improvements are amortized over the lease terms using the straight-line method. Investments in progress will be depreciated over their estimated useful life from the time they are ready for usage.

In 2001, the Bank revalued the land at fair value in accordance with the treatment permitted by International Financial Reporting Standard No.16. The fair value of land has been determined based on appraisals made by independent real estate appraisers. The book value has been adjusted to the average appraised market value. The revaluation surplus has been recorded, net of deferred income taxes, in the revaluation reserve-land, a separate account of shareholders' equity (note 30). Management believes that it will not be able to obtain fair value information on an ongoing basis in the absence of a reliable active market. Therefore, Management decided to consider the last estimated value as deemed cost of this land.

Depreciation rates applied to the main categories of fixed assets are as follows:

| Buildings | 2.5% - 5.0% |
|-------------------------|-------------|
| Equipment and furniture | 20% |
| Computer equipment | 20% |
| Leasehold improvements | 10% - 20% |
| Vehicles | 25% |

Depreciation methods, useful life and residual value of the various categories of fixed assets are reviewed periodically.

Major expenses for improvements and reconditioning are capitalized, and expenses for maintenance and repairs are charged to expenses.

Gains or losses realized on disposal of fixed assets are recognized in the consolidated statement of income. When revalued land and buildings are sold, the related surplus, reflected in the revaluation reserve, is transferred to retained earnings.

3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Properties held for sale

Properties held for sale, reflected in other assets, consist of land and buildings obtained in settlement of unpaid loans or repossessed. They are reflected at the lower of their estimated fair value or cost, which is equivalent to the balance of the unpaid loans plus interest receivable at the time of default, plus recovery fees incurred by the Bank.

These properties are actively marketed for sale in their current state for a period usually not exceeding one year unless there are circumstances beyond the control of the Bank. The properties that do not meet those criteria are reclassified as investment properties.

The carrying value of these assets is reviewed at each balance sheet date to determine whether there is any indication of impairment. In case of impairment, the carrying value is adjusted to the net realizable value, which is equivalent to the estimated selling price in the normal course of business.

Fair value is estimated based on appraisals from independent real estate appraisers or sale agreements.

In accordance with banking regulations, a reserve of 20% is required on properties held for sale. This reserve is established by direct transfer from retained earnings to "valuation reserve – investment properties and properties held for sale", a sub-account of shareholders' equity. This reserve is not subject to distribution.

(g) Investment properties

Investment properties represent land and buildings held by the Bank for an indefinite period and use, in anticipation that they will experience an increase in value compared to their original book value. In accordance with an alternative treatment permitted by IAS 40, these properties are reflected at amortized cost. They are amortized on a straight-line basis at the depreciation rate of 5%.

In accordance with the provisions of the Banking Law of May 14, 2012, these properties are subject to a 20% reserve established from retained earnings. The difference between the annual depreciation calculated at a rate of 5% and the annual regulatory reserve at the rate of 20% is reflected in a sub-account of shareholders' equity entitled "Valuation Reserve - investment properties and properties held for sale." This reserve is not subject to distribution.

(3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Goodwill and other intangible assets

Goodwill represents the excess of the cost of acquisition over the fair value of the net assets acquired. Goodwill presented in other assets is not amortized and is evaluated at every year end in order to identify any impairment in value. Goodwill is subject to an annual impairment test or more frequently if events or changes in circumstances indicate an impairment. Goodwill is presented at cost less impairment. Management believes that there has been no significant decrease in the book value of goodwill as of the date of these consolidated financial statements.

Goodwill impairment was recognized in 2023.

Computer software, which makes up other intangible assets, is amortized on a straight-line basis at rates ranging from 20% to 100%.

(i) Acceptances and letters of credit

The Bank's potential liability with respect to trade acceptances and letters of credit is reflected as a liability on the consolidated balance sheet. The Bank's recourse against its customers in the case of a call on these commitments is reported as an asset for the same amount.

(j) Deposits and subordinated debt

Deposits and subordinated debt are recorded at cost. The estimated fair value of these liabilities is assumed to be equal to their carrying value since the interest rates are in line with the current market rates.

(k) Paid-in capital

Paid-in capital reported in shareholders' equity is composed of common shares. Incremental costs that are directly attributable to the issue of an equity instrument are deducted from the initial measurement of the equity instruments. Dividends are recorded against retained earnings when approved by the General Assembly of Shareholders.

(3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(I) Paid-in surplus

The excess over par value received or paid by the Bank in capital stock transactions, is recorded in paid-in surplus. Paid-in surplus is decreased when treasury shares are repurchased, for the excess of the repurchase price over the nominal value of these shares. This excess is charged to retained earnings after the paid-in surplus becomes nil.

(m) Legal reserve

In agreement with the law on financial institutions, an amount of 10% of income before income taxes, reduced by prior years' losses, if any, is transferred every year in a reserve account in order to constitute the legal reserve, until such reserve reaches a maximum of 50% of the paid-in capital.

(n) General reserve and on investments

The general reserve is created by direct transfer from retained earnings and includes, as applicable, the excess of the provision required by the Central Bank (BRH) to cover potential losses on assets and the general provision for loan losses over the assessment of expected credit losses based on International Financial Reporting Standards, IFRS 9. This reserve is not subject to distribution.

(o) Revaluation reserve-land

The revaluation surplus on land is reflected in the revaluation reserve-land", a component of shareholders' equity. This surplus will be transferred to retained earnings upon disposal of the land. All revaluation losses will be recorded directly as expenses in the consolidated statement of income unless they relate to an existing revaluation surplus for the same land, in which case the revaluation loss will first be applied to the "revaluation reserve-land."

(3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(p) Revenue from contracts with customers

Revenues from contracts with customers are recognized when the Group transfers control over the services offered to customers for amounts which correspond to the counterpart expected to be received for the services offered. Revenue related to services provided is recorded on the basis of performance obligations met at the end of the reporting period. The determination of the timing in which performance obligations are met and the allocation of transaction price to performance obligations require the exercise of judgment.

(q) Interest revenue

Interest revenue is accounted for using the effective interest method for all "amortized cost" financial instruments and financial instruments at "fair value through profit and loss". The effective interest method is the basis for the calculation of the amortized cost of an asset and of revenue recognition in the period affected.

Per IFRS 9, the effective interest rate is the rate used for discounting the estimated future cash payments or receipts through the expected life of a financial instrument to obtain its gross carrying amount. When calculating the effective interest rate, the Group estimates future cash flows considering all contractual terms of the financial instrument, except for ECL. The calculation takes into account transaction costs and fees as well as premiums and discounts.

For financial instruments which are not considered credit impaired (phase 1), interest revenue is calculated based on the gross carrying amount of the financial instruments. For financial instruments which are credit impaired (phases 2 and 3), revenue is calculated by applying the effective interest rate to the amortized cost which, represents the gross carrying amount less provision for expected credit loss.

(r) Commissions

Commissions that are material to the effective interest rate of a financial asset or liability are included in the measurement of the effective interest rate.

Commission income and expenses, which are assimilated to service fees are recognized as income when the services are rendered.

(3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(s) Lease contracts

On initial recognition, the Bank records a right-of-use asset and a lease liability for leases of properties leased in accordance with IFRS 16.

The right-of-use asset is initially measured at cost, which includes the initial amount of the lease obligation plus prepaid lease payments, plus initial direct costs incurred by the lessee and an estimate of any cost expected for the dismantling of the underlying asset, less any lease inducements. This non-monetary asset is expressed in the functional currency of the Bank and is amortized, on a straight-line basis, over the anticipated probable duration of the lease.

The lease liability is originally measured at the present value of future lease payments, using the Bank's incremental borrowing rate, which is the borrowing rate available to the Bank to finance similar assets in a similar economic environment and under the same terms and conditions. To determine the incremental borrowing rate, the Group uses the average historical borrowing rate of BRH of 4% in dollars, and the average rates used on the interbank market, including the discount rate used for BRH bonds, of 18% in gourdes.

Each rental payment over the term of the contract is allocated between the amortization of the lease obligation and finance charges. The lease liability is subsequently revalued to reflect any changes in the contract terms.

The lease term is the irrevocable period of the lease plus the periods covered by extension options that the lessee is reasonably certain to exercise.

The right-of-use asset is initially measured at cost, which includes:

- The amount of the lease liability,
- · Payments made at the beginning of the contract,
- The associated direct costs and restructuring costs, if any.

Subsequently, the right-of-use asset is measured at cost less accumulated amortization and impairment, if any. It is also adjusted for any revaluation of the lease liability resulting from changes in the lease agreement.

The right-of-use asset is depreciated over the lesser of the life of the asset and the lease term on a straight-line basis. The amortization period used by the Group is between 4 and 20 years.

Expenses associated with short-term rentals and contracts of insignificant value are recognized directly in the consolidated statement of income.

(3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(t) Income taxes

Income taxes are calculated on the consolidated income before income taxes for the year and comprise current and deferred income taxes. Current income taxes are taxes payable on the taxable income for the year using statutory tax rates and other adjustments that may affect income taxes payable. Deferred income taxes resulting from timing differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes are reflected in other assets or liabilities, as need be. In accordance with the Income Tax Act, these losses may be carried forward in future years over a period of five years.

Income tax expense is recognized in the consolidated statement of income except to the extent that it relates to items of comprehensive income, in which case it is recorded therein. Items of comprehensive income are reflected net of income taxes, except for the effect of translation of foreign subsidiaries, which is not subject to income taxes, because it is unlikely that the temporary difference will reverse in the foreseeable future.

The Group recognizes in other assets or liabilities, where applicable, the deferred tax resulting from the difference between the rental expense recognized for tax purposes on a straight-line basis over the life of the lease and the result from the application of IFRS 16.

The Group has recorded in other liabilities deferred income taxes resulting from land revaluation. The related amounts will be reversed upon the sale of the land.

(u) Regulatory reserve for deposits and other liabilities

According to the reserve requirements of the Central Bank, as of September 30, 2024 and 2023, 40% of liabilities in local currency, and 53% on liabilities in foreign currency, must be held in deposits at the Central Bank. Up to 12.50% of the calculated reserve on liabilities in foreign currencies are maintained in gourdes. The reserve requirement on deposits of non-financial public enterprises is 100%.

(v) Net income per equivalent share of paid-in capital

Net income per equivalent share of paid-in capital is calculated by dividing net income for the year attributable to shareholders of the UNIBANK S.A. by the weighted average of equivalent common shares outstanding during the year.

(3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(w) Insurance

Insurance premiums are recognized as revenue proportionally over the period of coverage. As of the balance sheet date, the unearned insurance premium is reported in liabilities, which represent the portion of premium received on contracts in force that relate to periods after the balance sheet date. A single premium is charged to the customers at inception. The consideration received is deferred as a liability and recognized as revenue over the life of the contract on a straight-line basis. Revenue generated by insurance premiums is presented separately from commissions and net of related taxes and other charges levied on the premiums.

Claims and loss adjustment expenses are charged to income as incurred based on the estimated liability for compensation owed to contract holders or third parties damaged by the contract holders. They include direct and indirect claims settlement costs and arise from events that have occurred up to the end of the reporting period, even if reported subsequently to the Group within the reporting deadline. The Group reserves the right to reject claims if not reported within the contractual deadline. The Group does not discount its liabilities for unpaid claims since they are generally short-term.

(x) Provisions

Provisions are recorded when the Group has an obligation (legal or implied) resulting from past events and that it is probable that a future cash outflow will be necessary to meet this obligation and which cannot be reliably estimated. The timing or amount of cash outflow may be uncertain. A current obligation may be legal or implied resulting from past events, such as claims or similar past events. The provisions are not discounted since Management estimates that they will be honored or reversed in 12 months or less.

The amount recorded as provisions is revalued at each reporting date and must represent the best estimate based on the most reliable indicators considering the risks and uncertainties surrounding the obligation.

When it is assessed that it is unlikely that economic resources will be used to settle an obligation, no liability is recognized.

(3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(y) Standards, amendments and interpretations not yet adopted

As of the date of these consolidated financial statements, some standards, amendments to standards and interpretations have been issued but are not yet in effect as of September 30, 2024. These ehanges have not been taken into account in the preparation of the consolidated financial statements of UNIBANK. They are as follows:

Amendments to IAS 1

Classification of liabilities as current or non-current

Effective for years beginning on or after January 1st, 2024. The amendments specify that the classification of some liabilities as current or non-current may change. In addition, companies may need to provide new disclosures for liabilities subject to covenants.

Amendments to IAS 7 and IFRS 7

Suppliers finance arrangements

Effective for years beginning on or after January 1st, 2024. The amendments introduce additional disclosure requirements for companies that enter into finance arrangements with suppliers. This will allow for a better assessment of the impact on cash flows.

Amendment to IFRS 16

Lease liability in a Sale and Leaseback transaction Effective for years beginning on or after January 1st, 2024. This amendment impacts how a seller-lessee accounts for variable lease payments that arise in a sale-and-leaseback transaction. It introduces a new accounting model for variable payments.

Amendment to IAS 21

Foreign exchange rate

Effective for years beginning on or after January 1st, 2025. This amendment clarifies how a company estimates a spot rate when a currency lacks exchangeability.

(3) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(y) Standards, amendments and interpretations not yet adopted (continued)

Amendments to IFRS 9 and IFRS 7 Classification and measurement of Financial Instruments

Effective for years beginning on or after January 1st, 2026. The amendments include guidance on the classification of financial assets, including those with contingent features. Companies will now be required to provide additional disclosures on financial assets and financial liabilities that have contingent features.

IFRS 18

Presentation and disclosure in financial statements

Effective for years beginning on or after January 1st, 2027. IFRS 18, which will replace IAS 1, Presentation of Financial Statements, aims to provide greater consistency in presentation of the income and cash flow statements. Also, some non IFRS Management Performance Measures (MPMs) will now form part of the audited financial statements.

IFRS 19

Subsidiaries without Public Accountability disclosures

Effective for years beginning on or after January 1st, 2027. A subsidiary that does not have public accountability, and has a parent company that issues consolidated accounts under IFRS, is permitted to apply IFRS 19 which can substantially reduce their level of disclosure.

Amendments to IFRS 10 and IAS 28 Consolidated financial statements and investments in associates and joint ventures

No effective date is determined yet by IASB for these amendments that pertain to the sale or contribution of assets between investors, associates, and joint ventures.

Management does not expect that the adoption of the standards and amendments listed above will have a material impact on the financial statements of the Company in future periods.

(4) RISK MANAGEMENT

(a) Risk management framework

Effective risk management is fundamental to the general strategy of the Group. In all the business segments and markets in which the Group operates, Management aims to maintain a strong and disciplined risk management culture. The Directors and employees of the Group are invested with the responsibility to continuously reinforce this corporate culture based on effective risk management.

At UNIBANK, risks are assessed and managed according to the following four categories:

- 1) Financial risk, which includes credit risk, liquidity and market risk;
- Operational risk encompassing the risk, of loss resulting from processes, human resources, and inadequate or faulty internal control systems, or from external events such as natural catastrophes or terrorist attacks;
- 3) Insolvency risk resulting from management of capital;
- 4) Other risks: strategic risk, reputational risk, insurance risk and environmental risk.

The Board of Directors and the Group Senior Management team have the responsibility and oversight of the risk management framework as well as the associated governance structure. The Group applies the three lines of defense recommended by the Basel Committee on Banking Control and Supervision namely: 1) managing the lines/segments/units of activities; 2) managing the operational risk at corporate level; 3) internal and external audit reviews.

Risk management policies of the Group are established to identify and analyze the risk to which the group is exposed, to set appropriate risk limits and controls. Risk management policies are reassessed based on market conditions and products and services offered. The Group, through its Code of Ethics and training programs, aims to develop and maintain a control environment in which all employees are aware of their roles and responsibilities.

(4) RISK MANAGEMENT (CONTINUED)

(b) Governance structure and risk governance

The Board of Directors has the ultimate responsibility to establish and oversee the Bank's risk management framework. Its Executive Committee, assisted by the Management Team, oversees closely the financial and non-financial risks to which the Bank is exposed.

The Board has established the following committees, which are responsible for monitoring the Bank's risk management policies in their respective areas:

- Credit Committee: The Credit Committee has the authority and responsibility to
 approve and reject credit requests, modify credit terms, and approve the limits
 as well as the credit commitments. This committee defines the Bank's credit
 policies, ensures credit risk management and monitors the quality of the credit
 portfolio.
- Problem Loan Committee: This committee oversees the follow-up initiatives carried out by the Risk Management Department with respect to potential problem loans identified and to restructured loans. It assesses the actions taken for the recovery of 90 days past due and written-off loans, as well as the management of repossessed properties. The Problem Loan Committee validates or amends the recommendations made by the Credit Risk Management Department and prescribes strategies to be implemented to effectively mitigate the risks inherent to the credit portfolio.
- Loan Review Committee: This committee has the authority to evaluate the degree of inherent risk and decide on the rating of credit facilities, the strategy and the frequency of credit account reviews, write-offs, sign-offs, and all actions to undertake in order to protect the Bank against the risk of credit loss.

(4) RISK MANAGEMENT (CONTINUED)

(b) Governance structure and risk governance (continued)

- Asset-Liability Management Committee (ALCO): This Committee has put in place
 a prudent policy for managing liquidity, foreign exchange and interest rate risks.
 Within this committee, key Management personnel meet weekly to discuss the
 Bank's financial position and decide on interest rates, foreign exchange and
 investments.
- Investment Committee: This committee supervises the Treasury function to
 ensure that the investment policy established by the Board of Directors is
 adhered to. This committee approves of all investment decisions as well as the
 nature and maturity of financial instruments to be acquired.
- Audit Committee: UNIBANK S.A.'s Audit Committee is responsible for monitoring
 the process of preparing financial information, overseeing the efficiency of the
 internal control system, the internal audit and the risk management policies, and
 supervising annual reporting on a consolidated basis.
- Compliance Committee: The Compliance Committee oversees that the Bank's policies and procedures are in adherence to the laws, the Bank's Code of Ethics and other regulations. It is also responsible to oversee that UNIBANK S.A. is in compliance with the laws and ensures that appropriate anti-money laundering and anti-terrorism policies and procedures are implemented and followed.

(c) Capital Management

An adequate capital ratio is of foremost strategic importance against the risks of insolvency of a financial institution. Adequacy of capital constitutes the first and most important line of defense of UNIBANK in managing the risk of insolvency. In addition to invested capital, the Bank uses some instruments of quasi-capital, such as subordinated long-term debt and other regulatory capital allowed in the capital ratios. Within its policies and strategies, the Bank regularly assesses its capital adequacy as well as its capacity to continue to develop and sustain adequate capital ratios so as to maintain the confidence of depositors, investors and other market constituents.

(4) RISK MANAGEMENT (CONTINUED)

(c) Capital Management (continued)

The capital adequacy of Haitian banks is regulated in accordance with the Central Bank's capital requirements (amended Circular No. 88-1) as of September 30, 2024 and 2023, with the Central Bank's requirements with respect to the sufficiency of capital. Every banking institution must comply with the following two capital adequacy standards:

- Ratio of assets/capital A maximum multiple of 20 times between total assets and some qualifying off-balance sheet assets, and regulatory capital.
- Ratio of capital/risk-weighted assets The ratio of capital to risk-weighted assets should not be less than 12%. Risk weighted assets comprise balance sheet and some off-balance sheet assets to which specific risk weights are assigned based on credit risk, operational and market risks.

Regulatory capital consisting of:

- Tier 1 (Tiers 1A and 1B) capital attributable to ordinary shareholders after deduction
 of the regulatory reserve on investment properties and properties held for sale and
 the revaluation reserve.
- Additional capital (Tier 2) consisting of:
 - Financial instruments (face value and issue premium) with an initial duration of at least 5 years. The values are gradually adjusted for instruments exceeding 5 years.
 - o General reserve for loan losses if any.
 - Provisions for expected credit losses on loans and other assets in accordance with IFRS 9.

In addition to the minimum requirement of 12.0% set above, financial institutions must constitute permanently, on an individual basis and on a consolidated basis, an additional capital buffer set at 2.5% of the weighted risks, which must be composed entirely of basic capital elements (Tier 1A).

(4) RISK MANAGEMENT (CONTINUED)

(c) Capital Management (continued)

Failure to comply with this requirement does not constitute a breach subject to disciplinary actions. Insufficiencies, if any, would require the constitution or reconstitution of this buffer by limiting the distribution of profits to a variable percentage depending on the importance of the insufficiency.

Financial institutions are required to comply with the following overall capital requirements:

- Common Equity Tier 1 A capital: minimum ratio of 9.25% of weighted risks
- Common Equity Tier 1 capital: minimum ratio of 11.50% of weighted risks
- Total equity: minimum ratio of 14.50% of weighted risks.

Common Equity Tier 1 capital consists of Common Equity-Tier A capital and additional Common Equity-tier 1B capital.

Common Equity Tier 1A of UNIBANK capital includes: paid-in capital net, paid-in surplus, legal reserve, earnings for the last completed financial year, translation adjustments, net of intangible assets, excess of the right-of-use of leased assets over the related lease liabilities, goodwill and deferred tax assets if any, on a consolidated basis.

Additional tier 1B basic capital includes paid-up financial instruments with unlimited duration or with a minimum notice period of 5 years and reimbursement subject to prior agreement of the Central Bank and/or subordinated to all liabilities adjusted to exclude:

- Items included in Tier 1A capital;
- Minority interest;
- Treasury Tier 1B financial instruments;
- Investments in the form of Tier 1B capital of other institutions;
- Excess of the limits set in the circular on concentration of credit risks;
- Shortage of the provision for expected credit losses;
- Any shortage of provision;
- Any fraction of non-controlling interest in excess of 12% of the weighed risk of the consolidated entities reflecting such.

Unibank does not hold additional Tier 1B capital.

(4) RISK MANAGEMENT (CONTINUED)

(c) Capital Management (continued)

As of September 30, these ratios were as follows:

2024 2023 Assets/equity ratio (maximum ratio: 20 times) 12.81 times 14.46 times Equity to risk assets ratio (minimum ratio 12%) 25.03% 19.41% Common Equity Tier 1 A capital ratio (minimum ratio: 9.25%) 23.03% 17.11% Tier 1 capital ratio (minimum ratio: 11.5%) 17.11% 23.03% Total capital ratio (minimum ratio: 14.5%) 19.41% 25.03%

(d) Financial risk management

Financial risks to be managed by the Bank include cash, credit and market risks, including interest rate, foreign exchange and fair value risks.

d1) LIQUIDITY RISK

If UNIBANK S.A. does not have sufficient liquidity to meet its current obligations, it is then exposed to liquidity risk. Prudent and effective management of liquidity is therefore an essential element of the Bank's policy to maintain market confidence and protect its capital.

To manage this risk, the Asset – Liability Management Committee (ALCO) of UNIBANK S.A. has put in place a prudent and dynamic policy of cash management which allows the Bank to have sufficient liquidity to meet its current obligations as they become due. In addition, Management closely monitors the maturity of deposits and loans as well as other resources and claims against those resources so as to ensure a proper matching between resources and obligations, while complying with the statutory requirements applicable to the Bank and its subsidiaries.

The Bank's cash management policy ensures constant monitoring of the Bank's liquidity and a dynamic management of its short-term and long-term liquidity needs. This monitoring is performed by the Treasury Department, under close supervision of the Bank's Asset - Liability Management Committee. This Committee meets weekly, and as needed, to analyze the reserve and liquidity position of the Bank, and to take the appropriate decisions and amend the cash management policy when necessary.

UNIBANK S.A. is in compliance with the Central Bank regulations in terms of liquidity. As of September 30, it maintains the regulatory cash reserve required by Circular No. 111 (note 3 u).

(4) RISK MANAGEMENT (CONTINUED)

d1) LIQUIDITY RISK (CONTINUED)

As of September 30, the maturity profile of UNIBANK financial liabilities based on their initial contractual maturity is as follows:

September 30, 2024

| | | | | 6 months | More | |
|---------------------------------|---|--------------------|------------------|----------------|------------------|--------------------|
| (In thousands of gourdes) | | 0-3 months | 3-6 months | -1 year | than 1 year | Total |

(4) RISK MANAGEMENT (CONTINUED)

d2) CREDIT RISK

Credit risk results from the inability of a borrower to fulfill its financial or contractual obligations towards the Bank. To manage this risk, UNIBANK S.A. has put in place various policies and procedures which allow strict and systematic monitoring of its cash, investments, loan portfolio and other assets.

As of September 30, the maximum exposure to credit risk relates to the following significant financial assets:

| (In thousands of gourdes) | | 2024 | 2023 |
|--|---|------------------|-------------|
| Cash and due from banks: (note 5) | | | |
| Deposits with BRH (Central Bank) and BNC | G | 90,963,634 | 92,265,616 |

| Total financial assets | G | 207,327,231 | 205,095,639 |

(4) RISK MANAGEMENT (CONTINUED)

d2) CREDIT RISK (CONTINUED)

i. Cash and due from banks

Cash and due from banks are held at important financial institutions that the Bank considers as being financially solid. The financial viability of these institutions is reviewed periodically by the Asset Liability Management Committee. As of September 30, 2024 and 2023, respectively 77% and 79% of these cash and cash equivalents are kept at the Central Bank as reserve coverage.

Monetary policies adopted by the Central Bank of Haiti, the Federal Reserve Bank in the United States of America or other international institutions located in territories where the Group holds financial assets, may have an impact on the Group's activities, results and financial position.

ii. Term deposits with banks

Term deposits with foreign banks are considered to be low risk financial instruments.

iii. Securities

Investment risk occurs when a security loses value due to unfavorable financial performance, real or expected, of the issuer. To manage this risk, UNIBANK S.A. has developed and put in place policies and procedures which clearly define the nature and quality of the investments that Management may select.

The main aspects of the Bank's policy may be summarized as follows:

- Invest in negotiable securities, which have superior credit ratings, are highly liquid, readily marketable and with minimal risk of capital loss.
- Invest in overseas banks and/or in investment grade securities (AAA, AA, A, BBB) such as US Treasury Bonds, or certificates of deposits issued by prime American or European banks. Corporate securities (bonds, commercial paper, securities) must be "investment grade".
- Invest in Haiti in BRH (Central Bank) bonds and in Treasury Bonds issued by the Bank of the Republic of Haiti (BRH).

(4) RISK MANAGEMENT (CONTINUED)

d2) CREDIT RISK (CONTINUED)

iii. Securities (continued)

- Avoid taking positions which are speculative.
- Avoid concentration by amount, by sector, by type of instrument and by financial institution. In that respect, limits are established by the Investment Committee.

The Bank considers United States Government and Federal Agencies bonds as risk free. Equity instruments, investments in corporate bonds and other similar instruments are considered as investments while having an "Investment Grade" classification. To monitor this risk, the Group invests in instruments of which they master the operational and financial mechanisms, with a return proportionate to the risks. The financial information is reviewed periodically to evaluate the viability of these investments.

Thus, Management considers the risk relative to Haitian Treasury bonds to be low. Management is confident that the BRH and the Haitian Treasury will be able to honor their commitments within the contractual deadlines.

iv. Credit

The credit policy is defined by the Board of Directors. Credit risk is managed by the Credit Committee. The Credit Committee, which includes executive officers who are members of the Board and Bank Management, meets weekly and as needed to make decisions on loan approval requests, renewals or amendments to existing facilities. In addition to the Credit Administration Department, the approval process is also reinforced by the existence of a unit of control and evaluation of credit risk named "Credit Risk Management". This unit independently reviews credit files to evaluate supporting documentation and assess the credit quality and risks.

(4) RISK MANAGEMENT (CONTINUED)

d2) CREDIT RISK (CONTINUED)

iv. Credit (continued)

UNIBANK S.A.'s ability to manage credit losses is ensured through an appropriate diversification of risks, the type of guarantees obtained, sufficient shareholders' equity and impairment provision. The guarantees required from the borrowers also constitute an important factor of risk coverage, since an important part of the loan portfolio is covered by first lien on top tangible assets.

Within the Bank's policy framework, the Bank complies as of September 30, 2024 and 2023, with BRH's prudential regulations: Circular No. 87 on loan classification and calculation of provision for loan losses, Circular No. 83-4 on credit concentration which limits credit extension by borrower and by economic sector to a percentage of the Bank's statutory capital requirements, and Circular no. 97 requiring that loans in foreign currency do not exceed 50% of liabilities in foreign currency.

The political and economic environment in Haiti has led Management to revise its approach to credit management by emphasizing quality management rather than expending outstandings. The inclusion of the micro-enterprise loan portfolio, which has higher risk characteristics, explains in addition to the Bank's higher own risks, the higher endowments and credit loss balance in 2024 and 2023. Specific disclosures related to MCN are presented in the notes to the consolidated financial statements.

The sanctions imposed on certain political and economic agents, as mentioned in **note 3 a**, have also led the Bank to take precautionary measures with respect to transactions with these parties.

v. Other assets

The Bank considers the credit risk related to other financial assets as low.

(4) RISK MANAGEMENT (CONTINUED)

d2) CREDIT RISK (CONTINUED)

Geographic allocation of financial risk

As of September 30, the geographic allocation of credit risk based on the ultimate location of assets is as follows:

| (In thousands of gourdes) | 2024 | 2023 |
|---|--------------------|--------------------|
| Cash and due from banks | | |
| Haiti | G 92,520,194 | 94,190,348 |

(4) RISK MANAGEMENT (CONTINUED)

d3) MARKET RISK

Market risk arises from price fluctuations on the market and encompasses mainly interest rate risk, foreign exchange risk and the risk of fair value of financial instruments. The Bank's objective is to manage these risks within acceptable parameters in order to be profitable and to maximize its return on investment while preserving shareholders' equity and depositors' assets.

i. Interest rate risk

This risk is related to any possible incidence of interest rates fluctuations on the net income and consequently, on shareholders' equity. It results from the inability to adjust interest rates as the market evolves, to the extent that net interest margin decreases significantly or becomes negative. The amount of risk is based on the magnitude of changes in interest rates, as well as the size and maturity of the financial instruments.

In terms of interest rate management, most of the Bank's credit portfolio is placed at variable interest rates, which allows the Bank to make the proper adjustments, at its sole discretion, in response to market conditions. Furthermore, as of September 30, 2024 and 2023 respectively, approximately 41% and 50% of the credit portfolio have a maturity of 12 months or less allowing the Bank to minimize the risks of conversion between resources and uses, the objective being to reduce the unfavorable impact of a fluctuation in interest rates on the results and net position of the Bank.

Fluctuations in interest rates do not have a significant effect on demand deposits (gourdes and dollars) which essentially do not bear interest, and on savings accounts (gourdes and dollars). These deposits represent respectively 50% and 39% as of September 2024, compared to 49% and 42%, as of September 2023 of the total deposit portfolio of UNIBANK S.A. which constitutes respectively 89% and 91% of total deposits.

(4) RISK MANAGEMENT (CONTINUED)

d3) MARKET RISK (CONTINUED)

i. Interest rate risk (continued)

Moreover, UNIBANK S.A. ensures an effective management of interest rates on the following portfolios:

- Loans to and deposits from the Bank's customers;
- Haitian Treasury bonds, BRH bonds;
- Term deposits with banks;
- Local investments;
- Foreign investments which are adjusted as market conditions evolve;
- Borrowed funds and subordinated debt.

The adequacy of interest rates applied to these portfolios is reviewed regularly by UNIBANK's Management which determines the appropriate position of the Bank with respect to any anticipated fluctuations in interest rates and ensures appropriate coverage of any interest rate risks.

At year-end, the interest profile on the main financial instruments was as follows:

| (In thousands of gourdes) | % | | 2024 | % | 2023 |
|-----------------------------|------|---|-------------------|------|-------------------|
| | | | | | |
| Fixed interest rates: | | | | | |
| Financial assets | 64% | G | 69,654,804 | 51% | 53,463,092 |
| Financial liabilities | 22% | | <u>25,469,930</u> | 19% | <u>21,172,800</u> |
| Net | | | 44,184,874 | | 32,290,292 |
| | | | | | |
| Variable interest rates: | | | | | |
| Financial assets | 36% | | 38,731,525 | 49% | 50,609,999 |

| Interest-bearing | 100% | | 114,738,702 | 100% | 112,422,093 |
| Net | | G | (6,352,373) | | (8,349,002) |

(4) RISK MANAGEMENT (CONTINUED)

d3) MARKET RISK (CONTINUED)

i. Interest rate risk (continued)

As of September 2024, based on the following observations, the Bank estimates that the fluctuation of interest rates would not have a significant impact on the Group's results:

- Fixed-rate financial assets are comprised of: 60% of foreign securities, 16% of loans, 14% of Haitian Treasury bonds, 5% of BRH bonds, and 5% term deposits with banks.
- Fixed-rate financial liabilities consist of: 83% of term deposits with maturity, ranging from three months to more than one year, 7% of borrowed funds; 7% of subordinated debt and 3% of lease liabilities.
- 36% of financial assets and 78% of financial liabilities bear interest at variable rates.
- Variable rate financial assets consist of 82% loans; 14% money market funds and 4% overnight deposits.
- Variable rate financial liabilities are comprised of 81% savings deposits and demand deposits 19% which are essentially overnight deposits and savingschecking accounts.

ii. Foreign exchange risk

Foreign exchange risk results from significant matching differences between the assets and liabilities denominated in the same foreign currency, which could lead to a long or short position impacted by the changes of the gourde versus the US dollar or other foreign currencies.

With respect to foreign exchange risk management, the policy of UNIBANK S.A. has always been to maintain the trading position within very narrow limits. The policy in place prohibits holding speculative positions. The Bank's trading position is sold daily.

The Bank has foreign subsidiaries whose financial assets and liabilities are held in dollars.

(4) RISK MANAGEMENT (CONTINUED)

d3) MARKET RISK (CONTINUED)

ii. Foreign exchange risk (continued)

The tables below present the breakdown by currency of the Bank's consolidated financial assets and liabilities and of its subsidiaries as of September 30:

September 30, 2024

| | | | Dollars | Other currencies |
|-----------------------------------|---|------------|----------------------|----------------------|
| (In thousands of gourdes) | | Gourdes | converted in gourdes | converted in gourdes |
| Cash and due from banks | G | 34,484,565 | 85,710,265 | 168,298 |
| Term deposits with banks | | - | 3,727,301 | - |
| Securities | | 13,190,849 | 42,033,169 | 4,572 |

| Assets, net | G | 3,693,487 | 10,231,851 | 8,238 |

For every fluctuation of one gourde versus the US dollar, the foreign exchange position in US dollars would result in an exchange gain or loss of approximately G 76 million, as the case may be.

The exchange rates of the various currencies relative to the gourde were as follows:

| | 2024 | 2023 |
|----------------------------|----------|----------|
| At September 30 | | |
| US dollars | 131.4767 | 134.2581 |
| Euros | 146.7543 | 141.4409 |
| Average rates for the year | | |
| US dollars | 132.1912 | 140.9672 |
| Euros | 142.8953 | 147.2334 |

(4) RISK MANAGEMENT (CONTINUED)

d3) MARKET RISK (CONTINUED)

iii. Fair value of financial assets and liabilities

With the exception of foreign investments for which the fair value is disclosed in **note 7**, the book value of financial assets and liabilities is equivalent to their fair value since their interest rates are in line with market rates.

(5) CASH AND DUE FROM BANKS

As of September 30, cash and due from banks are as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|-------------------------------|---|-------------|-------------|
| Cash | G | 16.949.321 | 11,395,007 |
| Deposits with BRH and BNC | | 90,963,634 | 92,265,616 |
| Deposits with foreign banks | | 10,893,613 | 14,301,357 |
| Items in transit | | 1,556,560 | 1,924,732 |
| Total cash and due from banks | G | 120,363,128 | 119,886,712 |

Cash and deposits with BRH (Central Bank) and BNC (a government-owned commercial bank) are part of the cash reserve requirements on total liabilities that must be maintained in accordance with the related provisions of BRH (Central Bank) circulars. These deposits represent 40% and 42% of assets as of September 30, 2024 and 2023, respectively, and do not bear interest.

As of September 30, 2024 and 2023, deposits with foreign banks comprise: money market funds with rates from 3.90% to 5.04% and 3.60% to 5.10% respectively, redeemable on demand, and overnight accounts bearing an average interest rate of 3.28% and 2.80% respectively. Money market funds amount to G 5,371,167M (US\$ 40,853M) and G 8,167,813M (US\$ 60,837M).

As of September 30, deposits in gourdes and in foreign currencies are as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|--|---|---------------------------------|--------------------------|
| Deposits in gourdes Deposits in foreign currencies | G | 34,484,565 <u>85,878,563</u> | 30,310,792 89,575,920 |
| - | G | 120,363,128 | 119,886,712 |

(6) TERM DEPOSITS WITH BANKS, NET

Term deposits with banks are as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|--|---|----------------|-----------|
| Term deposits (a) | G | 3,710,931 | 2,108,754 |

(8) LOANS, NET (CONTINUED)

(a) An agreement was signed on December 11, 2014 between the Central Bank of Haiti and local banks to promote the residential housing sector through a credit program entitled "Logement 5 étoiles ". Based on this agreement, mortgage loans are extended in gourdes to middle class borrowers impacted by the earthquake of January 12, 2010. Interest rate on these loans is limited to a cap of 10% per annum and is fixed for the first 10 years. Beyond this period, variable interest rates will apply. The loans have a maximum maturity of 30 years.

Drawings from regulatory reserve funds to finance loans in the context of this program would be honored by the Central Bank if needed for up to 30 years at an interest rate between 1% and 3%.

The Central Bank's advances to UNIBANK related to this program total G 1,172,953M and G 1,249,462M as of September 30, 2024 and 2023, respectively and bear interest at a rate of 3% for 10 years (note 16 i).

The resources in local currency used to finance this program are exempt from regulatory reserves.

In addition, based on this agreement and over the duration of the program, the sectoral exposure limit of 25% required by the prudential norms on credit concentration has been increased to 50%.

Credit and counterpart risks are borne by the lender Bank.

- (b) Under an agreement signed on April 12, 2019 the Central Bank committed to support credit facilities in favor of export-oriented production enterprises. The interest rate of these loans cannot exceed 6% per year and is fixed for the duration of the loans granted over a period not exceeding 10 years. In order to support this initiative, BRH committed to advance funds to the Bank at a fixed annual interest rate of 1% or 2% for the duration of the 10-year agreement. The balances of the advances made under this program are detailed in **note 16 a (ii)**.
- (c) In accordance with the requirements of IFRS 9, for loans in errears, as well as for the entire portfolio, Management performed a risk assessment to take into account reasonable and probable information that may have an economic impact and/or result in a higher probability of default. Credit losses have been provisioned accordingly.

| Amortization of the year | | 599 | 2,350 |
| Balance at the end of the year | G | 726 | 16,615 |

(13) PROPERTIES HELD FOR SALE

Properties held for sale have evolved as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|--|---|-------------------------------|------------------------|
| Balance at the beginning of the year Transfer to investment properties New repossessions | G | 62,670 (62,670) 208,833 | 68,752 (6,082) - |
| Balance at the end of the year | G | 208,833 | 62,670 |

(13) PROPERTY HELD FOR SALE (CONTINUED)

On December 3, 2013, the Central Bank of Haiti issued an interpretative note on the requirement of article 189 of the Banking Law of July 20, 2012 on the establishment of an impairment provision of 20% on adjudicated properties or properties received in debt settlements. Based on the requirements of the Law, this reserve is established starting from the end of the second year following repossession. UNIBANK applied the required reserve starting in December 2015. It is reflected under the line item "Valuation reserve – investment properties and properties held for sale" in the shareholders' equity. As of September 30, 2024 and 2023, properties held for sale represent the current year repossessed properties, on which the reserve will be constituted at the end of a two-year period.

(14) OTHER ASSETS, NET

| | G | 1,875,857 | 3,073,558 |

(16) BORROWED FUNDS (CONTINUED)

a) Borrowed funds are advances from the Central Bank and are as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|---|---|-----------|-----------|
| Advances BRH – Logement 5 Étoiles (i) | G | 1,172,953 | 1,249,462 |
| Advances BRH – Financing for the agricultural sector (ii) | | 432,292 | 506,874 |
| Advances BRH – Export business credit facility (iii) | | 270,612 | 317,222 |
| | G | 1,875,857 | 2,073,558 |

- Under the terms of an agreement to promote mortgage loans signed between UNIBANK and the Central Bank of Haiti on December 11, 2014 for a period of 10 years, the Central Bank is committed to advancing funds to the Bank at fixed annual rates ranging from 1% to 3% payable monthly. The principal is repayable monthly over periods of 10 to 20 years and at maturity of 10 years for the initial advances. The Bank is authorized to exclude from regulatory reserves the resources in gourdes used to extend credit to the Bank's customers under this program.
- ii) According to the agreement of April 12, 2019 on the credit facilitation program in favor of export-oriented production companies, signed between Unibank and the Central Bank for a period of 10 years, the Bank received advances. Under this program, BRH committed to providing cash advances as needed by the Bank at an annual interest rate between 1% and 2%, payable monthly.
- iii) As of September 20, 2018, the Central Bank issued Circular No. 113 in order to boost the agricultural sector and the development of agribusiness. Under this program, BRH granted Unibank advances at annual rates between 1% and 2%, payable monthly over a 10-year period. The loan granted by Unibank under this program has been written off with a balance of G 346,429M (note 8 d).
- b) Short-term interbank loans, contracted with a local bank, on January 13 and April 28, 2023, bore interest at the rate of 14.25% per year, and matured on January 12 and February 28, 2024.

(17) OTHER LIABILITIES

As of September 30, other liabilities are as follows:

| Balance at the end of the year (note 28) | G | 315,419 | 210,099 |

(17) OTHER LIABILITIES (CONTINUED)

(b) Deferred income taxes are related to the following:

| (In thousands of gourdes) | | 2024 | 2023 |
|---|---|-----------------|-------------------------|
| Revaluation of land Unrealized gain on equity investments (note 7e) | G | 4,396 12,857 | 4,396 |
| omeanzed gain on equity investments (note 7e) | G | 17,253 | <u>12,857</u> 17,253 |

(18) SUBORDINATED DEBT

As of September 30, the subordinated debt is as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|---------------------------------------|--------|--|--|
| Fondation Unibank (note 27) Others | G G | 329,086 <u>1,397,729</u> 1,726,815 | 336,048 <u>1,435,353</u> 1,771,401 |

The subordinated debt is denominated in US dollars and is issued for a period of 10 years from 2016. They bear interest at average rates of 6.18% and 5.62% in 2024 and 2023.

Unifinance S.A., acting as broker for the issuance of the subordinated debt, manages the debt service and is paid by UNIBANK S.A. a fee of 0.25% of the amount issued.

(19) PAID-IN CAPITAL

As voted in an Extraordinary General Assembly on March 31, 2023 and effective as of September 30, 2023, the authorized share capital of the Bank was increased to fourteen billion gourdes (G 14,000,000,000), representing 560,000 shares with a par value of G 25,000 each. The nominal value of each share was increased by G 12,500 by integration of the legal reserve and transfer from retained earnings, as authorized by the Bank of the Republic of Haiti (Central Bank). The balance of treasury shares as of March 31, 2023 was recorded directly in reduction of capital issued at that date, with no effect on net capital.

(19) PAID-IN CAPITAL (CONTINUED)

As of September 30, authorized and paid-in capital are as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|--|---|--|-------------|
| AUTHORIZED CAPITAL | | | |
| 140,000 shares of class A with a par value of G 25,000 as | | | |
| of September 30, 2024 and 2023 | | | |

| CFGDCT and other taxes | | 36,957 | 63,172 |
| Other non-deductible items | | - | 4,198 |
| INCOME TAXES | G | 1,154,729 | 1,916,851 |

Income tax expense is comprised of the following:

| (In thousands of gourdes) | | 2024 | 2023 |
|---|---|---------------------------|-------------------------------|
| Current income taxes Deferred income taxes – IFRS 16 (note 14 a) | G | 1,147,553 <u>7,176</u> | 1,919,636 (2,78 <u>5</u>) |
| | G | 1,154,729 | 1,916,851 |

(23) RETIREMENT SAVINGS FOR EMPLOYEES

In addition to legal contributions to the mandatory Government Retirement Plan (ONA), the Bank and its subsidiaries contribute to the employees' retirement fund based on a variable contribution rate according to internal guidelines. The employees' retirement fund is a defined contribution pension plan. This liability is supported by a term deposit bearing interest at the rate of 5.0%. The Group contributions to this account for 2024 and 2023 amount to G 154,785M and G 153,256M, respectively. Since 2018, a subsidiary of the Group manages this fund, which is reflected as a liability and invested in a term deposit at UNIBANK at the rate of 5.0%. Intercompany transactions with respect to the term deposit account are eliminated.

(24) SALARIES AND OTHER EMPLOYEE BENEFITS

Salaries and other employee benefits are as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|---------------------------|---|-----------|-----------|
| Salaries | G | 4,216,906 | 4,327,809 |
| Employee benefits | | 644,398 | 556,737 |
| Payroll taxes | | 83,239 | 80,366 |
| Other expenses | | 116,644 | 139,810 |
| | G | 5,061,187 | 5,104,722 |

(25) RESULTS OF INSURANCE ACTIVITIES: UNDERWRITING INCOME, NET OF CLAIMS

Insurance (loss) income, after deduction of claims, comes from the activities of UniAssurances S.A.

As of September 30, 2024 and 2023, this (loss) income is as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|---|---|-------------------|-----------|
| Insurance premiums collected | G | 990,673 | 1,151,800 |
| Commission income | | 10,666 | 14,100 |
| Net brokerage fees | | (44,693) | (41,613) |
| Reinsurance costs | | (618,513) | (463,405) |
| Insurance premiums ceded to reinsurers | | (187,931) | (301,793) |
| Insurance claims | | <u>(445,075</u>) | (174,335) |
| TOTAL INSURANCE UNDERWRITING (LOSS) INCOME, | | | |
| NET OF CLAIMS | G | (294,873) | 184,754 |

(26) LOSSES RELATED TO RIOTS AND LOOTING

UNIBANK and its subsidiaries suffered considerable damage to their branch network and to several buildings housing certain departments, in particular:

- Damien
- Delmas 18
- Croix-des-Bouquets
- Lathan.

The losses related to the riots and recorded in the consolidated statement of income are as follows:

| (In thousands of gourdes) | | 2024 |
|---|---|-------------------------|
| Cash losses Net losses on fixed assets (note 9) (a) | G | 77,829 <u>30,503</u> |
| | G | 108,332 |

(a) An adjusted net amount of G 23,119M was received as reimbursement of claims on losses of fixed assets. The effect of this reimbursement on the consolidated is nil given the elimination of intercompany transactions, the loss of Unibank having been offset by Uniassurances.

(27) TRANSACTIONS WITH RELATED PARTIES

In addition to Foundation UNIBANK, an unconsolidated non-profit philanthropic affiliate, the main companies related to UNIBANK S.A., and its consolidated subsidiaries, are:

- Haïti Agro Processors Holding, holder of 70% of the share capital of Les Moulins d'Haïti S.E.M., and of which SNI Minoterie L.P. owns 33.31%.
- National Investors, a company held by the shareholders in proportion to their interest in Unibank, which records the shareholders interest in Immoblier S.A., SNI Minoterie L.P. and Corail.
- · Companies related to Board members.

(27) TRANSACTIONS WITH RELATED PARTIES (CONTINUED)

The balances of the transactions with these companies are as follows:

As of September 30

| (In thousands of gourdes) | | 2024 | 2023 |
|-----------------------------|---|---------|---------|
| LIABILITIES | | | |
| Deposits | G | 313,065 | 457,551 |
| Subordinated debt (note 18) | | 329,086 | 336,048 |
| | G | 642,151 | 793,599 |

During the years

| (In thousands of gourdes) | | 2024 | 2023 |
|---|--------|---|---|
| INCOME Other revenue | G | 104 | 91 |
| EXPENSES | | | |
| Rent Amortization of rights of use and financial charges Other services | G G | 50 68,218 <u>134,512</u> 202,780 | 60 79,882 <u>160,785</u> 240,727 |

The Bank provides ordinary banking services to and receives services from related parties, at conditions similar to those applied to third parties.

Loans granted to employees of the Bank and its affiliates, and to members of the Board of Directors and their related parties are disclosed in **note 8**.

Lease liabilities, receivables and deposits of members of the Board of Directors and their related companies are disclosed in **notes 10, 14 and 15**.

(28) <u>COMMITMENTS</u>

In the normal course of business, the Bank contracts various engagements and assumes contingent liabilities that are not reflected in the consolidated balance sheet.

As of September 30, commitments and contingent liabilities are as follows:

| (In thousands of gourdes) | | 2024 | 2023 |
|--|---|---|---|
| Available credit on overdrafts (i) Letters of guarantees Available limits on credit cards (ii) | G | 12,841,682 3,997,275 <u>3,257,211</u> | 10,669,769 2,913,155 <u>4,710,156</u> |
| | G | 20,096,168 | 18,293,080 |

- (i) Authorized overdrafts can unconditionally be cancelled at any time by the Bank and do not carry commitment fees. They are contracted for a maximum of one year and will expire or be terminated without notice.
- (ii) Available limits on credit cards can be unconditionally cancelled at any time by the Bank.

As of September 30, 2024 and 2023, the provision for expected credit losses on credit commitments totaling G 315,419M and G 210,099M respectively is presented in other liabilities (note 17 a).

(29) LITIGATION

As of September 30, 2024, in the normal course of business, the Bank is engaged in litigation procedures initiated by or against it. To date, as per legal counsels' opinion, there is no exceptional situation and no judicial issue which could have a significant adverse effect on the Group's consolidated financial statements and/or the Group's consolidated results of operations.
